Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3632

This is the second office action for application number 10/657,642, Method for Securing Frame Members for an Electrical Cabinet, filed on September 8, 2003. This application is a divisional of application no. 09/869,618 filed on March 5, 2002.

Drawings

The drawings were received on July 2, 2004. These drawings are approved.

Claim Objections

Claims 11 and 14 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 11 and 14 are drawn to structural limitations whereas claim 4, the parent claim, is drawn to a method claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3632

Claim 10 recites the limitations "the first member" in line 2 and "the second member" in line 3. There is insufficient antecedent basis for these limitations in the claim.

Allowable Subject Matter

Claims 4, 9, 12, and 13 are allowed.

Claim 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the limitations of a method of securing in abutment two tubular metal members including the steps of forming at least two first holes in one wall of each metal member, acting through the first holes so formed to burst second holes in opposite walls of the members and forming outwardly extending collars with screw threading, and engaging the collars of the other of the metal members in the first holes of one of the metal members, now included in independent claim 4 and combination with the other elements recited in the claim, is not found in the prior art of record.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent 4,036,51 to Hannover

U.S. Patent 4,345,956 to Cox et al.

U.S. Patent Application Publication 2004/0124319 to Hofmann et al.

Hannover discloses a pipe fitting inserted into a hole of a pipe. Cox et al. disclose a first pipe having a wall with an opening for receiving a second pipe. Hofmann et al. disclose a system for connecting mounting rails.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
